### JavaScript Meetup

Presentation Sept 19<sup>th</sup>  
Choose your own adventure:  
Dueling Auths & Mystery Forms

### Code for Philly

Philadelphia Lawyers for  
Social Equity

## ABOUT

*Pursuing a Front End Developer position with full stack certification from the University of Pennsylvania. As a lab manager and as a student in the bootcamp I have honed my attention to detail and enhanced my problem solving, project management, and analytical skills. These experiences have also developed my ability to work both independently and with a team. I enjoy drawing upon my experience in technology, human behavior, research, and design to create a seamless and intuitive user interface.*

## PROJECTS

RedStapler <https://www.redstapler.app> [Github](#)

### Application to help navigate what's next career wise

- I worked on the front end with React, all dynamically rendered forms, and the data visualization*
- Utilized React, Django, OAuth2, Docker, Google Cloud Platform, Universal Cookies, Materialize, React-select, React Vis, and Postgresql*

Stroll <https://on-a-stroll.herokuapp.com/> [Github](#)

### Application to manage all aspects of your dog walks

- I worked on setting up models for MySQL, using Handlebars to for dynamically display the data from MySQL, and implementing Multer*
- Utilized JavaScript, jQuery, MySQL, Node.js, Express, Handlebars, Sequelize, Passport.js, Google Maps API, Multer, Canvas, Moment.js*

## EXPERIENCE
